

## **Quartz Compac obtains Certification for Food Contact materials**

---

In order to assure the suitability of Quartz Compac products to be used in Food contact areas, Mármol Compac S. A. has obtained for this product line the voluntary certification based in the compliance of following US-Standard: "NSF/ANSI 51: Food contact equipment". This voluntary certification is recognised by the FDA (Food and Drug Administration) and is applicable to materials intended to be used for food contact surfaces/equipment.

NSF Internacional is a third party certification agent with a large experience in the development and testing of standards related to Food and Health Safety.

Quartz Compac products have obtained the certification based in the NSF/ANSI 51 for products intended to be used in food contact surfaces.
